

A FEW WORDS ABOUT DISCIPLINE AT BERG-OP

The Berg-Op Academy staff will continue to present methods of strong and consistent discipline, which will result in a high level of positive student behaviour. This includes self-discipline, respect for authority and for peers, good self-image and positive attitudes towards education, life and society.

We believe students learn in an orderly atmosphere. We encourage parental support in maintaining a positive climate at Berg-Op Academy. We want to teach our learners the value of the following reasonable rules and to help them to understand that there are consequences when rules are not followed. As we modify our rules and discipline procedures, parents/guardians will be informed.

All learners at Berg-Op Academy have certain rights, but in order to protect these rights for all learners, certain responsibilities must also be accepted. We believe that with parental support, our learners will be successful in not only upholding their rights, but behaving in a responsible manner.
